## Commission Disclosure

Dear Sir / Madam

**Customer:**

**Proposal Number:**

**Equipment**

Thanks for considering CF Capital Plc (**CFC**) to help you explore your finance options.

You've been introduced to us by **(Introducer)**.

We are able to introduce you to a limited number of potential funders who can provide leasing finance for the Equipment. We will consider various factors such as your financial position, product terms and the amount of commission in deciding which funder to introduce you to. However, we are not independent and cannot give you impartial advice on the most suitable finance for you.

You should therefore ensure you have considered what alternative finance options are available to you elsewhere before entering into any agreement with a funder we introduce.

### Our Commission

If you enter into a lease agreement with a funder we introduce, they will pay us commission. This payment is intended to reflect the work we undertake and the costs we incur to arrange a potential finance option for you and is beneficial to us. The commission will be calculated as a percentage of the cost of the Equipment (exclusive of VAT). The payments you will make to the funder under your lease agreement will include charges to cover their costs. Those costs will include the amount of commission they pay to us.

We will notify you of the exact amount of commission we will receive prior to you signing a lease agreement and you will be asked to consent to that commission being paid.

### Introducer Commission

The Introducer has a dual role of both selling the Equipment you would like to finance and also acting as a credit broker when introducing you to us.

The Introducer has already explained to you that whilst it is able to introduce you to us, it is not independent and cannot give you impartial advice on the most suitable finance option for you.

If you enter into a lease agreement with a funder we introduce, we will pay a proportion of our commission to the Introducer for the work it undertakes to introduce you to us and for helping to arrange the agreement. We will notify you of the exact amount of commission it will receive prior to you signing a lease agreement and you will be asked to consent to that commission being paid.

Yours faithfully

*CF Capital Plc*
